

Guide letter 4: Improve vehicle management and public transport

Include the following points in your letter:

I request that the O'Farrell Government establish:

a ban on increased snow clearing of the Park's roads in winter, including the Kosciuszko Road between Perisher Valley and Charlotte Pass

a ban on increased snow clearing within the ski resorts, including in the currently snow bound Perisher Valley

a public transport plan that decreases traffic on Park roads, reduces the need for car parks in the Park and includes an upgrade of the 'Ski Tube'

a ban on off road four wheel driving, trail biking and horse riding in the Park due to the damage they cause, especially in remote areas.

Please advise me of the steps your Government is taking to develop a public transport plan which decreases traffic on Park roads and includes an upgrade of the 'Ski Tube'?
